2024 TOTAL SOLAR ECLIPSE SPECIAL EVENT STATION - W5S

CQ CQ CQ ... THIS IS WHISKEY 5 SIERRA ... W5S... WHISKEY 5 SIERRA... special event station for the Lake Whitney Amateur Radio Society' s commemoration of the 2024 Great American Eclipse...

We are commemorating the Total Solar Eclipse of 2024, on April 8... Our Club call is November Zulu 5 Tango.

The Total Solar Eclipse on April 8 will be the last one in Hill County, Texas until 2044...

... Here at Lake Whitney, we will experience 4 minutes and 20 seconds of totality beginning at 1:38pm local time on Monday the 8th ...

... the width of the moon's shadow during totality here in the Lake Whitney area will be 119 miles..

...100% of Hill County will experience totality during the eclipse... so we are expecting quite a few visitors to the area... in fact, our County seat at Hillsboro has been ranked number 7 on the *Astronomy* Magazine's top 20 Total Eclipse viewing sites...

... Hill County covers almost 1,000 square miles with a population of about 36,000, & is located about 60 minutes south of the DFW area & 30 minutes north of Waco Texas...

... We are offering QSL Cards (w/SASE) if you are interested AND there are two additional Special Event Stations here in Hill County that are marking the Eclipse - they are November 5 Sierra at the Hillsboro Texas Airstream Community and Kilo 5 Sierra on Lake Whitney (AA5HK)... Collectively we are planning to offer a Certificate of Accomplishment for those that work all three of the Special Event Stations during April 1-15th, 2024... You can get more details on our NZ5T QRZ page
